EDUCATION

FEU Diliman

August 2022 - Expected September 2026

Sampaguita Avenue, Mapayapa Village III, Quezon City

Bachelor of Science in Information Technology with specialization in Web and Mobile Application

Virgen Del Pilar School

August 2020 - May 2022

Iloilo Street, Rodriguez, Rizal

Senior High School - Science, Technology, Engineering, and Mathematics

UNIVERSITY PROJECTS

FacilitEASE

Project Manager, Technical Writer, Lead Programmer, and UI/UX Designer

- Assigned roles and set deadlines for the thesis paper using Google Sheets, and monitored project progress through Notion.
- Coordinated with clients via email and face-to-face meetings to gather necessary information (e.g., descriptions, organizational charts, challenges) and to arrange meetings during the implementation and deployment stages.
- Developed both the front-end and back-end of the web application. Built responsive interfaces using HTML, CSS, and JavaScript, and implemented server-side functionalities using PHP to process service requests and manage reservations.
- Created UI/UX designs prior to coding, serving as a guideline for the sequence and structure of the web and mobile applications.

Buzzina

UI/ UX Designer

- Designed UI/UX for project modules such as Login/Sign Up page, Home page, Profile page, Shared Location, Add New Location/Route, and GPS Alarm page.
- Created the main poster design for the project using Canva.

Enginium

Project Manager and UI/ UX Designer

- Assigned and tracked group members' tasks using Microsoft Excel for progress monitoring.
- Designed UI/UX layouts for the homepage and service pages of the project using Canva.
- Created posters for main campaigns, teaser releases, and project requirements using Canva.
